Changes in v2.5.3

- Previously, you might have experienced problems when using the editing application with the Japanese OS or with the Japanese language file on the English OS. This has been fixed.
- (Macintosh) Previously, the application might have taken 15 seconds to launch. This has been fixed.

(Macintosh) Previously, the DUO dongles did not work with the x.5.2 editing application. This has been fixed. The DUO dongles now work with this release of the editing application.
